

## Chicago Zoological Society

*Inspiring Conservation Leadership*

<b>Title</b>	<b>Communications Research Intern</b>
<b>Learning Objectives</b>	Interns will gain an understanding of techniques used to measure and evaluate a variety of services and programs at Brookfield Zoo, such as audience needs, level of guest satisfaction, success of special exhibits, or people's connections to nature.
<b>Responsibilities</b>	Research projects include work and data collection to help understand different audience needs, explore levels of guest satisfaction, assessing special exhibits, and measuring connections to nature. Projects will include quantitative and qualitative data collection techniques. Interns will aid in data collection (mostly out of doors in the park) and with data entry and may help with other aspects of ongoing research projects such as pilot testing new methodologies.
