August	Week G: July 28–Aug 1 <i>Theme: Adaptations</i>						✓	✓	✓	✓	✓	
	Week H: August 4–8 <i>Theme: Five Senses</i>						✓	✓				

Zoo Camp offers four themes that rotate through the summer: Fives Senses, Adaptations, Habitats, and Zoo Jobs. However, each week is unique and depends on camp age group, animal availability, weather, etc. For each age group, our curriculum developers create activities that focus on animals, conservation, and STEAM education. Our Camp Counselors come from backgrounds such as biology, zoology, environmental studies, and education and are trained to deliver the day's lesson in a hands-on and engaging manner. Campers will also have the chance to explore the Zoo, observe animals, create projects, and interact with peers.

Five Senses- focuses on how animals use their senses in the wild (only available for Pre-Zoo).

Habitats- focuses on both the animal's wild habitat and their habitat recreation at the zoo.

Zoo Jobs- focuses on how the people at the Zoo contribute to the Zoo's mission.

Adaptations- focuses on various traits animals use to survive in nature.
